GuardianX Academy

INSTITUTIONAL PARTNERSHIP BROCHURE

Certification Trainings
Internships · Placement Support

One MoU. A complete cyber security program for your campus.

GuardianX Academy partners with schools, colleges and universities through a formal Memorandum of Understanding. Under one agreement we deliver industry certification trainings on your campus, run training-cum-internship cohorts for your students, and support your placement cell all the way to hiring outcomes - with verifiable certificates every student can share with employers.

PILLAR 1

Industry Certifications

- CEH, CCNA, WAPT, RHCSA and more, delivered on your campus
- Verifiable certificates employers can check by ID in seconds
- Curriculum aligned to your semester calendar

PILLAR 2

Internships

- Training-cum-internship cohorts with real security-operations work
- Mentor review, weekly deliverables and professional practice
- Verifiable internship certificate for every participant

PILLAR 3

Placement Support

- Interview preparation and portfolio reviews for final-year students
- Placement drives connecting students with hiring partners
- Dedicated support for your institution's placement cell

31+	100%	On-campus	1 MoU
Docker-powered labs	Verifiable certificates	Delivery model	Covers everything

Every partnership is delivered by working security practitioners with production labs - students practice on real vulnerabilities, not slideware. Partners also receive real-time analytics on student progress, attendance and engagement across the program.

Partnership models & how we start

Tailored per institution type - every model is customised in the MoU.

Three models, one agreement

Schools

K-12 cyber education with a complimentary School Management System for MoU partners, teacher onboarding and parent-friendly progress reporting.

Colleges

Industry-aligned certification courses integrated into the curriculum, hands-on labs, faculty enablement and structured internship cohorts.

Universities

Advanced research-grade cyber range, degree-program integration, capstone support and placement drives for final-year cohorts.

The MoU process - five steps

1. **Conversation**
   Tell us about your students, calendar and goals.
2. **MoU draft**
   We share a draft covering scope, tracks and schedule.
3. **Program plan**
   Certifications, internships and placement support are finalised together.
4. **Delivery**
   Training runs on your campus with our instructors and labs.
5. **Outcomes review**
   Certificates issued, outcomes measured, next batch planned.

Ready to bring GuardianX to your institution?

Write to us or use the contact form on the website - our partnerships team responds within 24 hours and will walk you through the draft MoU.
